Family Fun Day!

Remembering September 11, 2001

Thank You Senator Brooks!

The students and families of The Hagedorn Little Village School, *Jack Joel Center for Special Children* are grateful for all of the support that **Senator Brooks** provides us and the rest of the special needs communities!

The current funding that the Senator has allocated to us will help to fund our expense of providing the specialized instruction and equipment that our students require in our CARP program.

Note From a Former Student Stuart Goodman

I went to Preschool here and graduated back in 2002. This school was very helpful in helping me get to where I am today succeeding in life as a functional adult. Even though this school was the beginning of my journey to success, it played a huge part in helping me reach goals and exceed expectations. I came into that school at 2 years old, not being able to talk and cooperate in activities to graduating that school being able to talk to people and cooperate. I did go through special ed help in my public school years, but was able to participate in normal activities.

I now am a college graduate with a bachelor's degree with employment in my chosen field who is able to be self sufficient/independent and have a normal social life with groups of friends. I don't know if any of what I am doing today would be possible without the help that little village provided me early in my life and I want to thank them with all of my heart for that. I know that everybody's goals and abilities are different, but for parents that have preschoolers going through things now with their children, don't give up because you never know what their outcomes can truly become and I hope that my backstory helps you. You are all truly awesome!!!
